

space

For businesses of all shapes and sizes

The North East Business and Innovation Centre (BIC) is home to a diverse range of companies, which have been able to grow and flourish through our flexible accommodation and business space, whilst taking advantage of 24 hour business support and cutting edge technical facilities.

Established in 2003, 21 Degrees is a climate control firm which provides comfortable working environments, from design and installation to service and maintenance, for a range of clients nationwide.

Well established as a specialist firm in climate control, 21 Degrees has clients ranging from banks to process, biotechnology and manufacturing companies through to restaurant and pub chains.

Vince Noble, Director of 21 Degrees, says: "The BIC has provided a perfect base from which to grow our company. The range of accommodation available means that we have been ideally housed at every stage of our development, from the early days when we had a very small team, to our current status where we accommodate 26 staff members. The support services, which are made available to all BIC tenants, also make it easier to stay at the cutting edge of new business developments."

To arrange a site visit and view the variety of business space available at the North East BIC, call **Donna Surtees on 0191 516 6066** or email **businessspace@ne-bic.co.uk**.
